Non-Stop Traffic Formula

Video #2

Today I'm going to reveal my top 11 sources for Traffic that I personally use to grow my multi-million dollar business and that you can also use to grow your business starting almost immediately.

11 Backdoor Ways To Sneak Into Google

- Google's most recent "caffeine" update...
- They are also backdoor ways of sneaking into to Google...
- So even if Google doesn't send your site traffic...

Video #1 Recap

- Google almost put me out of business 7 years ago.
- And even though it sucked at the time... It was the best thing that ever happened to me.
- Yes, Google stills send me traffic every single day and I turn that traffic into money
- And this is my third consecutive year of records profits even though we've been in the worst recession in 70 years.

My Brother

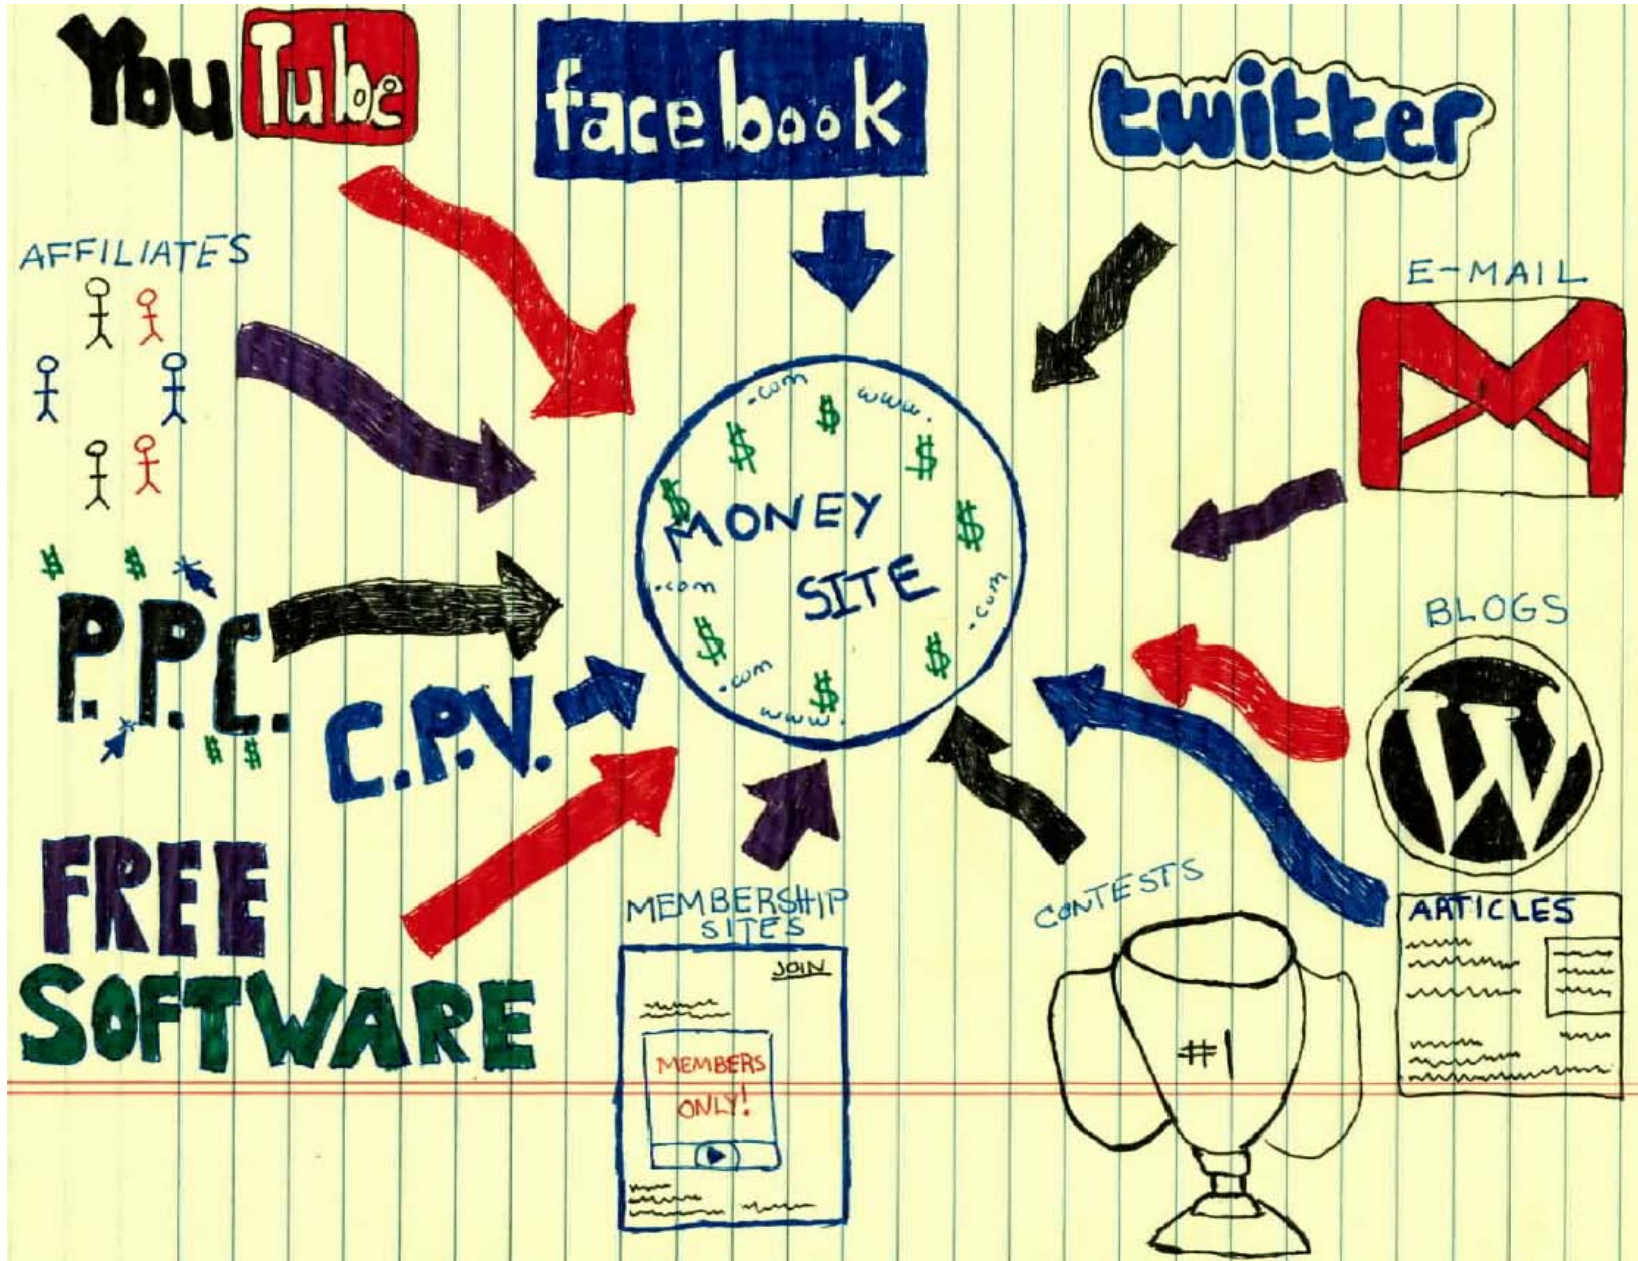

- There's also a happy ending to my Brother's story...
- My Wife finally came to work with me as well
- And there's no one in this world that I trust more with my own business than my brother and my wife...

- That's pretty much it for the recap... but before I forget...

“Youtube Bounceback”

What does all that stuff mean?

“Youtube Bounceback” means you bounce the people back from your videos into your sales funnel.

Which means every video that you post to youtube should have a clear “call to action” that compels the viewer to visit your “most desired action”

90% of all your video marketing efforts should start with, and center around youtube

Don't use automated software to submit your videos to youtube

“Youtube Bounceback”

Bounceback in my description

“Youtube Bounceback”

Here are the most important things to do when **optimizing video hosted on a video sharing site such as youtube, etc.**

- Primary keyword phrase in your title
- Primary and secondary keywords in the description
- Primary and secondary keywords in your “tags”
- Encourage people to comment on the video
- Encourage people to “favorite” the video
- Drive as many viewers to your videos as possible
- Encourage people give leave “like” or “thumbs up” for your video
- Link to your videos from external sites and blogs with primary keyword phrase in your anchor text

“Youtube Bounceback”

- Here are the most important things to do when **optimizing video hosted on your own website...**
- For non-blog pages use keyword rich title tags, descriptions, meta keywords and keyword rich content on the video page itself (description of the video, your transcripts of the video, etc).
- For Blog posts use keyword rich titles, keyword phrases for “tags”, keywords in your meta tags, keyword rich content in the post, categories, description, etc.
- Link to your videos from external sites and blogs with primary keyword phrase in your anchor text
- Set up your internal linking structure of your site so the navigation links pointing to your videos contain your primary keyword phrase in the anchor text of the navigation link that points to your video page

How to use youtube as a “Backdoor” into Google

According to Forrester Research done in 2009... A leading source of business intelligence and research on the web...

“on the keywords for which Google offers video results, any given video in the index stands about a 50 times better chance of appearing on the first page of results than any given text page in the index”

- **That means it’s much easier to get a first page ranking on Google by sneaking into their backdoor by posting optimized videos on youtube and other video sharing site... than it is to optimize a blog post or static page on your website.**
- **Double dip it by loading the video up to youtube first and then posting that youtube video on your blog... and work on optimzing both for maximum exposure.**

WASHINGTON (AFP) – US Web surfers spent more time on Facebook than on Google sites in August, the first time the social network has surpassed the Internet titan, [online tracking firm comScore](#), said Friday.

Americans spent a total of 413 million minutes on the Internet during the month and about 10 percent, or 41.1 million minutes, were spent on Facebook, comScore said.

A total of 39.7 million minutes were spent on Google sites, which include the [Google search page](#), YouTube, Google News, Gmail and others. Yahoo! sites were next with 37.7 million minutes.

In July, US Web surfers spent 40.5 million minutes on [Google sites](#), 39.9 million minutes on Facebook and 38.7 million minutes on Yahoo! properties, comScore said.

Facebook Surpasses Google in Weekly U.S. Hits for First Time

March 17, 2010, 1:06 PM EDT

By Mary Childs

March 2010

March 17 (Bloomberg) -- Facebook Inc., the world's largest social-networking site, surpassed Google Inc.'s search engine in weekly hits to become the most visited Web site in the U.S. for the first time, according to research firm Hitwise.

Facebook.com accounted for 7.07 percent of visits in the week ended March 13, topping Google.com's 7.03 percent, New York-based Hitwise said in a March 15 blog post. Facebook almost tripled its visits from a year earlier, compared with 9 percent growth at Google, the most popular search engine.

Facebook, started in 2004, has lured users by adding games and making it easier to check messages, notifications and friend requests. To compete, Google added a social-networking feature called Buzz to its Gmail e-mail service last month, allowing users to share photos, comments and clips from its YouTube video site. The company is considering building a version that works outside of Gmail.

Google, based in Mountain View, California, climbed \$5.39 to \$570.59 at 11:43 a.m. New York time on the Nasdaq Stock market. Before today, the shares had dropped 8.8 percent this year. Closely held Facebook is based in Palo Alto, California.

Google and Facebook representatives didn't immediately respond to e-mailed requests for comment.

“Facebook Push”

- “Facebook Push” means I push content out to my facebook account
- I am my own brand so I don’t let others “impersonate me”... I prefer to have my own message in my own voice show up on my social networking sites... so I create the message once, and have software “push” my content out to facebook
- Your goal is to make money, not chat all day.
- Push quality content out and make sure it all leads back into your sales funnel
- You should use software programs that automatically push your blog posts to your facebook profile and your fan pages. We currently use LinksAlpha.com
- Youtube automatically pushes your video updates to facebook profile and fan pages. You set the service up from inside your youtube account.

“Facebook Push”

- Facebook is viral... every time some takes an action such as “Likes”, comments, posts videos, pictures, etc... all of their friends find out about it... and all their friends find out about it... and their friends, and their friends and their friends...
- Get people to take action on your profile
- Post videos on a regular basis
- Share photos
- Get them to “like” your fan page

“Facebook Push”

- Get them to become your friend
- Get them to “like” your web pages and blogs
- Use “FBML” to add optin forms to your fan page
- Use “FBML” to protect your fan page so only “fans” are allowed to see your content so they have an incentive to be your friend.
- Use the “friends only” feature on your profile content to protect certain content that is for “friends only” so they have an incentive to become a friend.
