

Now Even A Complete Novice Can **Dominate Pg #1 Google**

Welcome to the SEO-1st-Page

READ ME FIRST

Read This First - Welcome Page
This page contains very important information!

Dear SEO-1st-Page owner,

Please read the whole of this letter, before you get going!

If you haven't done so already...

Please bookmark <http://www.SEO-1st-Page.com/toolkit>

Whenever you need to download the resources in this toolkit return to the bookmarked page. This location will not expire, so there's no need to rush to download everything.

Your decision to purchase this the **SEO-1st-Page** toolkit - was a smart move with potentially money-spinning consequences for you. That's because the ability to dominate Google's first (and second pages) on a whole variety of search terms is a genuinely amazing skill to learn. And because, as you'll already appreciate, traffic means sales – unless you're doing something else horribly wrong!

There's no "sellathon".

You'll recall that I mentioned before you picked up a copy of SEO-1st-Page that there would be no post-purchase sellathon to put up with and I have delivered on that promise.

SEO-1st-Page is remarkable because it completely works and you can reasonably expect to see your keyword searchterm listings appear all over the web, but you'll be relieved to know that there's genuinely no – now you're in – upsell and nothing else that you'll need to buy in order to make SEO-1st-Page work for you.

All the websites that you'll be building (and there are many, but don't let that worry you because it's all online and easy) are absolutely free of charge. In fact, I don't recommend that you spend another cent ANYWHERE in this manual!

Now how refreshing is that?

I do mention one or two productivity tools that I've personally chosen to use and you might decide to as well, but there's absolutely no need to purchase anything to make SEO-1st-Page work for you – so don't feel any pressure whatsoever. I thought I'd just share what I like and works for me. They're not the be all and end all. And not required to complete this program.

Quick health (and wealth) warning!

SEO-1st-Page can only help you if you use it. Buy it, leaving it on the shelf, but failing to use it is not going to cut the mustard for you and that's why I've said from the outset, I'll ask you for real feedback if you tell me that it doesn't work for you. That's because I know it does work in all circumstance and for everyone – but only if you follow the instructions in the toolkit's manual.

And talking of the SEO-1st-Page Manual, the one thing you're quickly going to discover is that this is an incredibly detailed step-by-step manual. I've gone out of my way to ensure that you have everything you need in order to make SEO-1st-Page work for you. So that means that I've taken hundreds of screen grabs, detailed every Copy and Paste and have literally bent over backwards to ensure you success!

I know that I can rely on you to take REAL action and in a way you've already proved yourself by following the first piece of advice which is to make certain that you've read the READ ME FIRST letter.

So I take the fact that you're reading this page as an indication that you mean to meet with SEO-1st-Page success!

The technical stuff we need to cover.

Password protection

You'll notice that your IP address is logged every time you visit the membership area. This is because we use sophisticated software to ensure that only registered users are logged in.

IMPORTANT: Never share your password with anyone. It may result in your account being permanently de-activated!

The SEO-1st-Page is protected by my own commercially available [Easy-Download Protector](#) script and from version 5 onwards one of the features is *IP Abuse Alert*. Keep your password private and you'll never have any problems logging in.

Adobe Acrobat Reader

Some downloads (including the manual) are provided in **PDF format**. It's ready-to-read on your screen or you can print it out. In case you don't have a free Acrobat Reader -- just follow the easy to follow directions for downloading it [by clicking here](#). The hyperlinks are directly clickable and this makes it easy for you to review the various resources that I talk about.

Sometimes users report a smoother experience by actually downloading the PDFs to their own hard drive. It is permissible for you to place individual PDFs on your desktop from this toolkit, and then open them up from there. However you are reminded of the copyright protections.

Occasionally, someone will contact me and say that they've downloaded a PDF file, but the contents look like gobbledygook or there's something missing. Sometimes there maybe a reference to missing colorspace for example. **Don't panic if this happens to you - the problem is easy to fix.**

Earlier version of Acrobat reader didn't handle color very well and this can cause an apparent problem. Simply upgrade your Acrobat reader to the very latest version available [here](#). Adobe do release small incremental version improvements, so always update your Acrobat Reader before trying anything else.

Read the advice in the manual about whether or not to print out the entire manual.

Getting Help.

If something is not working right for you with this toolkit then please don't panic. Help is available.

You can be reassured by the knowledge that there are others going through the exact same *SEO-1st-Page* process as you right now and you can hook up with them to share your problems, knowledge and solutions.

The *SEO-1st-Page* Client Only Forum is a private Forum which is only accessible by *SEO-1st-Page* toolkit owners By now you should have been invited to join the *SEO-1st-Page* Client Only Forum. If not then request access now as follows:

Join up to the regular 'How To' Internet Marketing Forum at <http://www.howtocorphelp.com/htforum/index.php?action=register>

Make sure that you approve the confirmation email that you receive via email to activate your account.

Then go to www.HowToCorpHelp.com and send a new Help Request ticket quoting your forum username and we'll get your access to the *SEO-1st-Page* Client Only Forum up and running.

You'll find a general discussion from other *SEO-1st-Page* owners in addition to Day-by-Day boards where you can discuss any issues. So for example, let's say that you're on Day 3 and don't understand one of the instructions or have any idea about making something easier for others -- this would be the place to come and talk about it. It's a real community for *SEO-1st-Page* owners only :-).

In addition I'm here to help! Simply drop by my help desk and submit a support ticket at <http://www.HowToCorpHelp.com> and I will respond just as soon as I can.

Sometimes I'm sitting in front of my computer, but other times I'm out or asleep, so please be patient. I won't keep you waiting too long and if I'm busy then my help desk team will help.

If your questions are of a wider internet marketing nature then you can also seek technical or marketing help at my general internet marketing 'How To' Forum: <http://www.HowToCorpHelp.com/forum> where I'll answer your question for the benefit of everyone and you'll also find plenty of other folk who are happy to assist.

Remember: You won't be left to work it out on your own, but you've got to ask for the help first!

Yours,

Michael Green

P.S. Once again, please note that you will need to sign-in using your account details to access the various material you have purchased. Do not share your password with anyone. Access rights and IP addresses are closely monitored

using sophisticated software.

P.P.S. You should only need to sign-in once per session. If you find you are having to sign-in lots of times, then check your cookies and security settings as they are probably set too high. The default browser settings will provide a good balance between security for you and ease of use for this and other websites.

Please ensure that this software is installed:

Before you get started, please ensure that you have the latest version of the FREE Adobe Acrobat Reader on your computer. This can be downloaded from here: [Acrobat Reader](#).

Please also ensure that you have [Winzip.com](#) installed on your computer. Note, if you're using Windows XP or above then you won't need to specifically install winzip as windows is already capable of unzipping the items of software.
